INTRODUCTION

Purpose

Emergency Support Function (ESF) #6 – Mass Care, Emergency Assistance, Temporary Housing, and Human Services coordinates and provides life-sustaining resources, essential services, and statutory programs when the needs of disaster survivors exceed local, state, tribal, territorial, and insular area government capabilities.

Scope

Mass care, emergency assistance, temporary housing, and human services agencies and organizations at the local, state, tribal, territorial, insular area, and Federal levels work together to provide life-sustaining assistance to disaster survivors. The four primary functions of ESF #6 are:

Mass Care: Congregate sheltering, feeding, distribution of emergency supplies, and reunification of children with their parent(s)/legal guardians and adults with their families.

Emergency Support Function #6 – Mass Care, Emergency Assistance, Temporary Housing, and Human Services Annex

Emergency Assistance: Coordination of voluntary organizations and unsolicited donations and management of unaffiliated volunteers; essential community relief services; non-congregate and transitional sheltering; support to individuals with disabilities and others with access and functional needs in congregate facilities; support to children in disasters; support to mass evacuations; and support for the rescue, transportation, care, shelter, and essential needs of household pets and service animals.

Temporary Housing: Temporary housing options including rental, repair, and loan assistance; replacement; factory-built housing; semi-permanent construction; referrals; identification and provision of safe, secure, functional and physically-accessible housing; and access to other sources of temporary housing assistance.

Human Services: Disaster assistance programs that help survivors address unmet disaster-caused needs and/or non-housing losses through loans and grants; also includes supplemental nutrition assistance, crisis counseling, disaster case management, disaster unemployment, disaster legal services, and other state and Federal human services programs and benefits to survivors.

Federal ESF #6 agencies are linked closely with two Recovery Support Functions (RSFs) defined in the National Disaster Recovery Framework: (1) Housing and (2) Health and Social Services. Following an incident, these RSFs may be activated concurrently with ESF #6, although their initial focus will be on planning and information sharing rather than response. When active at the same time, the ESFs and RSFs collaborate and share information while focusing on their respective functions. There is intentional overlap between ESF and RSF missions but as ESF requirements diminish, RSFs assume the residual ESF activities that are associated with recovery. The timing of this transition depends on the scope of the incident and the needs of survivors. ESF #6 works closely with the Housing RSF to coordinate the transition of survivors from sheltering and temporary housing to long-term and permanent housing as quickly as possible.

ESF #6 also coordinates closely with the Health and Social Services RSF to ensure continuous support for social services needs in the impacted communities.

RELATIONSHIP TO WHOLE COMMUNITY

A basic premise of emergency management is that disaster response begins and ends at the community level. This is particularly true for the functions of ESF #6, as many disasters occur with little or no warning, thereby requiring that life-sustaining services be provided quickly to prevent additional suffering and loss of life. ESF #6 partner agencies and organizations rely on the whole community to meet the needs of disaster survivors.

Key elements of the whole community include individuals with disabilities and others with access and functional needs whose needs must be considered well in advance when preparing for disasters and emergencies, and who are important partners to support the delivery of core capabilities during incident response (e.g., through associations and alliances that serve these populations). People with disabilities and others with access and functional needs include individuals who are from diverse cultures, races, and nations of origin; individuals who do not read, have limited English proficiency, or are non-English speaking; people who have physical, sensory, behavioral, mental health, intellectual, developmental and cognitive disabilities; senior citizens with and without

Emergency Support Function #6 – Mass Care, Emergency Assistance, Temporary Housing, and Human Services Annex

disabilities or other access and functional needs; children with and without disabilities or other access and functional needs and their parents and/or guardians; individuals who are economically or transportation-disadvantaged; women who are pregnant; individuals who have chronic medical conditions; and those with pharmacological dependency.

Community disaster and emergency plans should include provisions for individuals who own household pets or have responsibility for service and other animals. Planning factors should include resources and processes for the rescue, transportation, care, shelter, and essential needs of animals.

The whole community also includes local, state, tribal, territorial, insular area, and Federal governments; nongovernmental organizations (NGO), including voluntary, faith-based, community-based, and other nonprofit organizations in the civic/nonprofit sector; academia; the private sector; individuals; and communities. Partners from all elements of the whole community work together to address shortfalls and help to ensure that the life-sustaining needs of disaster survivors are met.

Individuals/Households

Disaster response begins with individuals and households executing their disaster plans, which should include having sufficient food and water on hand; a plan for communication; pre-identified shelter locations; pre-identified evacuation routes; and a Go Kit that includes important documents, lists of medications, household pet or service animal vaccination records, and photo identification for all members of the household. Individuals with disabilities or others with access and functional needs implement their plan for accessible transportation and/or support resources, including service animals. Households with animals activate their plan for the evacuation, transportation, sheltering, and care of their animals.

Private Sector/Nongovernmental Organizations

This ESF #6 Annex uses the term NGO to refer to voluntary, faith-based, community-based, and other nongovernmental organizations in the civic/nonprofit sector.

NGOs, together with academia and the private sector, are integral elements of the whole community response in coordinating with local, state, tribal, territorial, insular area, and/or Federal partners to provide ESF #6 resources, programs, and services to affected individuals/households and communities. These partners collaborate to resolve the disaster-related unmet needs of affected individuals and communities.

NGOs and the private sector also provide operational information to local, state, tribal, territorial, insular area, and Federal ESF #6 or equivalent points of contact. This information allows government ESF #6 planners to identify actual or potential shortfalls and/or excesses and adjust services to the needs of the community.

Local, state, tribal, territorial, insular area, and Federal agencies coordinate with NGOs and the private sector to support the management of unsolicited donated goods and services as well as unaffiliated volunteers and organizations. These resources, when incorporated effectively into the whole community response, can help accelerate the recovery of individuals, households, and communities.

Emergency Support Function #6 – Mass Care, Emergency Assistance, Temporary Housing, and Human Services Annex

Local, State, Tribal, Territorial, and Insular Area Governments

Local, state, tribal, territorial, and insular area governments are responsible for the welfare of those who reside in their jurisdictions. State and territorial governments are usually organized using the ESF structure; however, local, tribal, and insular area jurisdictions may not address all of the components of ESF #6 or may have adopted a different emergency response structure. The state designates one or more official(s) to coordinate with Federal ESF #6 during incidents requiring a coordinated Federal response.

At the local level, government agencies, NGOs, and the private sector coordinate ESF #6 activities to meet the immediate needs of disaster survivors. When the impact of the incident exceeds local resources, the state may provide additional support. Resources from national-level NGOs and the private sector may augment local and state response capabilities. When these resources are insufficient, Federal assistance may be requested through the Federal Emergency Management Agency (FEMA) Regional Office. Other Federal departments and agencies may also respond under their own authorities to provide assistance to the affected community. Additionally, other Federal ESFs, including ESF #3, ESF #8, and ESF #11, may supplement or support activities under ESF #6.

Local, state, tribal, territorial, and insular area governments have obligations under civil rights laws to ensure equal opportunity for individuals with disabilities and others with access and functional needs when providing mass care services.¹

Federal Government

Specific information on Federal Government actions is described in the following sections.

CORE CAPABILITIES AND ACTIONS

ESF Role Aligned to Core Capabilities

The following table focuses on the response core capabilities that ESF #6 most directly supports, including the related ESF #6 actions. Though not listed in the table, all ESFs, including ESF #6, support the following core capabilities: Planning, Operational Coordination, and Public Information and Warning.

Core Capability	ESF #6 – Mass Care, Emergency Assistance, Temporary Housing, and Human Services
<p>Mass Care Services</p>	<ul style="list-style-type: none"> • Supports local, tribal, territorial, and insular area governments and NGOs in the coordination and provision of mass care, emergency assistance, temporary housing, and human services resources, programs, and services. • Provides life-sustaining services to the affected population, including hydration, feeding, and sheltering, as well as support for reunifying families. • Supports the establishment, management, and operation of congregate and non-congregate care facilities. • Coordinates with local, tribal, territorial, and insular area governments and NGOs to facilitate the return of evacuees to their pre-disaster or alternate locations. • Develops an initial temporary housing strategy to transition survivors from congregate to non-congregate care alternatives and provides relocation assistance or interim housing solutions for households unable to return to their pre-disaster residence. • Anticipates and identifies current and future ESF #6 requirements in coordination with local, state, tribal, territorial, insular area, and Federal governments, NGOs, and private sector partners. • Activates Federal ESF #6 data systems. • Acquires, transports, and delivers ESF #6 resources and services to meet the needs of disaster survivors, including children and individuals with disabilities and others with access and functional needs. • Provides general care for separated/unaccompanied minors until they are placed in the care of appropriate authorities. • Supports nontraditional congregate care facilities. • Provides technical assistance for the development of local, state, tribal, territorial, insular area, Federal, NGO, and private sector operational plans for mass care, emergency assistance, temporary housing, and human services. • Mass Care • Sheltering: Provides life-sustaining services in congregate facilities that provide a safe, sanitary, and secure environment for individuals and households displaced by disasters. Also includes support to survivors sheltering in place and in ESF #8 medical shelters. • Feeding: Provides feeding services at fixed sites and distribution sites and through mobile feeding units. Feeding services may include hot or shelf-stable meals, infant formula, baby food, snacks, beverages, and food packages, as well as diverse dietary and culturally appropriate meals (e.g., low sodium, low fat, vegetarian/vegan, halal, kosher). ESF #6 works in concert with ESF #11 and local, state, and tribal governments; NGOs; and the private sector to acquire, prepare, cook and/or distribute food and food supplies. Additional support may include the provision of technical assistance for the development of state feeding plans.

Core Capability	ESF #6 – Mass Care, Emergency Assistance, Temporary Housing, and Human Services
<p>Mass Care Services (continued)</p>	<ul style="list-style-type: none"> • Distribution of Emergency Supplies: Acquires and delivers life-sustaining resources, hygiene items, and cleanup items to meet the urgent needs of disaster survivors. Additional support includes transportation, warehousing, equipment, technical assistance, and other mission-critical services. • Reunification Services: Provides facilitated assistance for children separated from their parent(s)/legal guardian(s), as well as adults from their families, due to disaster. Supports reunification efforts at the local, state, tribal, and/or territorial levels with technical assistance. • Emergency Assistance • Coordinates resources and emergency assistance in support of local, state, tribal, territorial, and insular area governments as well as NGOs and the private sector. • Voluntary Agency Coordination: Facilitates the coordination of NGOs, places of worship, and the private sector to ensure that capabilities, resources, and services are integrated into local, state, tribal, territorial, and insular area response. • Volunteer and Donation Management: Coordinates unaffiliated volunteers, unaffiliated organizations, and unsolicited donated goods to support all ESFs. • Essential Community Relief Services: Coordinates and delivers debris removal from disaster survivor residences; sandbagging; mud-out; tear-out; chainsaw work; warehouse management; transportation and distribution coordination; childcare services; emotional and spiritual care and counseling; financial assistance; financial counseling; disaster-related case work and case management; and other essential services. • Mass Evacuee Support: Supports affected and host jurisdiction mass evacuation activities, including provision of mass care services and tracking the movement of evacuees, their household pets, service animals, and medical equipment. Deploys resources to support affected and host jurisdiction evacuation operations, including mass evacuation tracking system kits and staff to provide technical assistance. In coordination with ESF #8, provides mass care services to medical patient evacuees. (Note: Evacuees who have chronic medical conditions may be evacuated with the general population. For evacuation of patients, refer to ESF #8.) • Support for Access and Functional Needs: Coordinates and provides equipment, supplies, and services required to assist children and adults with disabilities and others with access and functional needs to maintain their independence. • Household Pets and Service Animals: Coordinates and provides rescue, transportation, shelter, reunification, care, and essential needs of household pets and service animals during response operations to ensure their safety and well-being. Service animals are not pets and may not be separated from the individual with a disability or other access and functional need; service animals should be permitted anywhere the public goes.
